

PHOTO CONTEST: UQAM STUDENTS ABROAD

Since 2008, the Office of International Relations of l'UQAM has invited UQAM students involved in an international exchange project to participate in its photo contest about international mobility. The goal of the contest is to encourage creativity while creating a visual archive of the international mobility of UQAM's students.

The contest takes place twice a year: in the fall and again in the spring. The photos, accompanied with a short description, are selected by a committee. The selections can found on UQAM's *International Web* page.
